DETAILED ACTION

1. This office action is in response to amendment filed 08/23/2005

Allowable Subject Matter

2. Claims 1-30, 32-46 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claims is the inclusion of electron window which isolates electron source from gas molecules and deceleration electrode between the electron window and collector electrode to decelerate the electrons.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Golden (US 3,670,172) discloses charged particle analyzer (Fig. 1) comprising electron source 11 for generating electrons, collector electrode 17, and deceleration electrode 32 (Fig. 3) between collector and source to decelerate the electrons. Golden did not disclose an electron window which isolates electron source from gas molecules and deceleration electrode between the electron window and collector electrode.

Kanemochi et al. (JP 03135746 A) discloses device for measuring pressure in ultra-high vacuum area comprising electron source 21, collector electrode 25 and decelerating electrode 24. Kanemochi et al. did not disclose an electron window which isolates electron source from gas molecules and deceleration electrode between the electron window and collector electrode (Fig. 1,2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
